There appears to be an epidemic of school troubles throughout Columbiana county. The pupils evidently want to "run" the schools, and strange as it may appear, the teachers will not have it that way. When log school houses were built in the woods and hickory whistles were handy and frequently used by the "school masters" there was less trouble than since costly school buildings have been erected and curiously graded in some high-falootin' way by some purely theoretical individual fresh from college, instead of the university of hard knocks.

The "convention edition" of the United Mine Workers Journal, published at Indianapolis, reached my table last week with 24 pages. It is a most interesting and well illustrated paper, and contains the annual reports of president T. L. Lewis and Secretary Ryan and some ably written letters from miners throughout the world. Before me the 20th annual convention of District No. 6, U. M. W. of A. recently held in Columbus, O., in which is given the "report of special committee on injunctions," of which our townsman, Percy Tellow, president of sub-district No. 4, is one of the special committee. The report is an able and powerful paper, yet was issued too late to have its effect upon the recent national election. It arranges the 40,000 mine workers of Ohio against the action of Justice Wright when sentencing Samuel Gompers, John Mitchell and Frank Morrison of the American Federation of Labor for disobeying a court made law. Gompers, Morrison and W. J. Bryan's law on injunctions but the labor vote turned him down, preferring an injunction.

Through the efforts of Sub-district President Percy Tellow and the miners and business men of Salineville, Mrs. Frances Skinner of that mining town gets a Carnegie Hero Medal, pension of \$40 a month for herself and \$5 a month for her children under the age of 16 years. Mrs. Skinner was about 52 years old, was a stationary engineer at the Big Vein coal mine at Salineville and on the 27th of June, last year, he lost his life after rescuing several miners caught in a gas explosion. For his heroic act his young widow and children get the above reward. Our townsman, O. E. Holt, did a similar act of heroism when rescuing Chas. Snyder during the last explosion at the Pierless mine, but still lives with a mangled, yet hopes that a jury will reward him for his suffering, etc.
